

You Notice We Use the Word "Service"

in connection with our business, in its relation to you and your clothes. It's a good word to use, as we mean it; it may be interesting to you to know just how we do mean it. "Service"

means to us doing for you, in all matters of things to wear, not only what you want done, but what's best for you to have done. We include "what's best for you" because some times a man gets an idea that he desires something in clothes that he really ought not to buy; and while we're not here to make you do what you don't want to do, we feel some responsibility to you to see that you get the best possible for your money. In clothes that means

suits and overcoats; and we say that not because they're the clothes we sell, but because we believe it is true, and that is the reason we sell them.

We provide other things to wear with the same idea; service to you. The best shirts we can get; the best underwear, hosiery, neckwear, hats; it's merely a question with us as to what's best for our customers.

If you once get our idea about it, and see how closely your real interests are involved in ours, we'll sell you what you want to buy; because that's the right idea for both of us.

WALL STREET IS RELIEVED

Result of the Tobacco Plan Acceptance

NO FURTHER FEAR EXPRESSED

Of a Receivership—Cotton Corner Case in Supreme Court—Important Bearing on the Score of the Anti-Trust Measure.

New York, Nov. 10.—So much uneasiness had been felt lest there be a hitch in the Tobacco Trust reorganization that the decision of the United States circuit court accepting the American Tobacco company's plan was discussed in Wall street yesterday with manifestations of relief. The effect of the decision on the securities of the Tobacco company and its subsidiaries was less interesting than the result in the general market. Although steps may be taken by the independent tobacco men to review the decision of the circuit court it seems to have stopped talk of receiverships, fear of which was the bugbear that hovered over investors since the independents began their active fight against the reorganization plans proposed by the company. Stock market operators as a rule, however, anticipated the action of the court ever since the attorney-general indicated his approval of the scheme. The slight modifications made by the court in the proposition submitted by the company have brought forth no expressions of disappointment or disapproval from the officers and counsel for the disintegrated trusts.

American Tobacco Securities Go Up.
The stock market made an emphatic response yesterday to the court's approval of the American Tobacco company reorganization plan. There was a rush to buy stock at the opening of the market and prices rose rapidly. American Tobacco preferred advanced 1½ points, the common stock 4, the 6 per cent. bonds 1½ and the 4 per cent. bonds a point. The movement was even more pronounced in other stocks, especially United States Steel, on account of the dissolution suit recently instituted against the corporation. United States Steel opened with the sale of 20,000 shares at 59½ to 60½, a maximum advance of 1½. The stock was bought

in enormous quantities, and was forced up nearly three points. Reading gained almost as much and practically all of the active stocks gained a point or more.

WILL STEEL DISSOLVE?

Rumors That Directors Are Considering Offer of Voluntary Reorganization.

New York, Nov. 10.—Following the announcement of approval by the judges of the United States circuit court of the American Tobacco company's plan of reorganization, reports were generally circulated in the Wall street district yesterday that directors were in conference with a view to offering to the government a voluntary dissolution along similar lines, hoping thereby to put an end to the suit against the corporation. Nothing definite could be learned of the report, and many were disposed to place little credence in it, especially in view of the Morgan-Gary statement before the suit and Judge Gary's remarks since then claiming the corporation to be legal in its present form.

WALSH ESTATE ONLY \$125,000.

Chicago, Nov. 10.—Not more than \$125,000 is expected to be left out of the estate of John R. Walsh, according to information given out preceding the filing of the late financier's will. The widow and five children will be the sole beneficiaries. The Walsh fortune once was estimated at \$27,000,000.

GREEN IN GOOD SHAPE TO MEET TIGER ELEVEN

Bennett Is the Only Dartmouth Regular Not Likely to Get into the Play.

Hanover, N. H., Nov. 10.—Bright and early this morning—at 6:02 o'clock, to be exact—Dartmouth's gridiron warriors left en route to Princeton, where the green clashes with the yellow and black to-morrow afternoon. Dartmouth players will arrive in New York late this afternoon, traveling on to Tigertown Saturday morning.

With the two most important games of its schedule ahead, the Dartmouth team is in pretty fair physical condition, better, in fact, than it has been at any time during the earlier stages of its development. The only one of the varsity regulars who will probably be unable to get into the line-up is Bennett, at left guard, the coaches deciding that it would hardly be worth while to take chances putting him into the line. Whether Whitmore or Beer will be sent in at the start of the game is the only question not yet settled in connection with the line-up. Dartmouth will go down, bristling with aggressiveness and new plays. Princeton will have to be at top form—the form that beat Harvard. There can be no slump, not even a momentary lapse, during the game. Dartmouth teams have a way of taking advantage of such opportunities. Besides, it will

be Princeton's last workout before the Yale game. Neither Princeton nor Dartmouth has been beaten this season. The former, however, has been tied twice. But this can be said of Nassau, it has played stronger teams than have the Hanoverians.

INQUIRY ON TICKET SCANDAL.

President Johnson Says He Has Evidence That Will Astonish Baseball World.

Cincinnati, O., Nov. 10.—"We will go into this matter of ticket speculation thoroughly and the material I have gathered and will reveal at the proper time will astonish the baseball world," said B. B. Johnson, president of the American league, when he arrived here yesterday to participate in a meeting of the national baseball commission. Besides Mr. Johnson, Thomas Lynch, president of the National league, and many prominent baseball men, were here to attend the meeting, which was held late yesterday.

Aside from the ticket speculation investigation, the committee heard the appeals of the Eastern league and American association to be granted a higher classification in the national agreement. None of the members of the commission would say what action that body would take on the petitions. Many of the baseball men at present in the city stopped over on their way to attend the big baseball meeting at San Antonio, Tex., on November 19.

PILES CURED IN 6 TO 14 DAYS
